

LETTER FROM THE EDITOR-IN-CHIEF

Camil Castelo-Branco

Clinic Institute of Gynecology, Obstetrics and Neonatology, Hospital Clinic, Faculty of Medicine, University of Barcelona, Spain

Dear all,

The 15th European Congress of the European Society of Gynecology (ESG) will take place in Amsterdam, the Netherlands, from the 29th of November to the 2nd of December 2023. Amsterdam is a very nice place to visit and sightsee, but also to broaden our knowledge. The organizing committee will bring together the experts in gynecology, obstetrics, and reproduction to inform, inspire and share their experience through an exciting scientific program!

The program will include controversial and novel topics with an up-to-the-minute medicine focus, fertility care in the context of a global fertility decrease, fertility preservation, ART, on demand contraception, treatment personalized strategies for the menopause, management of PCOS during the lifespan, sexuality, surgery, endometriosis and many other exciting topics.

Don't miss the opportunity to present your work and be among the world-known experts in all gynecology related areas.

Abstract submission is now open, and all accepted abstracts will be published in an online open access special issue of the European Gynecology & Obstetrics journal (EGO) (<https://www.egojournal.eu/>)

EGO journal also invites you to submit full papers (research and reviews) addressing the topics from basic science to health and social care in the European countries but also the countries from other parts of the world.

For additional information, visit the EGO journal website (<https://www.egojournal.eu/>).

Sincerely yours,
Professor Camil Castelo-Branco
Editor in Chief
European Gynecology and Obstetrics
